Coast Guard**

LOCAL NOTICE TO MARINERS

District: 1

Week: 05/14

COASTAL WATERS FROM EASTPORT, MAINE TO SHREWSBURY, NEW JERSEY

NOTES: (1) Unless otherwise indicated, missing and destroyed structures are presumed to be in the immediate vicinity of assigned position, mariners should proceed with caution.

(2) The Local Notice to Mariners consists of a Weekly Edition.

(3) Inquiries, Published Articles or Information: <mailto:LNMD1@uscg.mil>

(4) The U.S. Coast Pilot supplements the navigational information shown on nautical charts. (5) The Coast Pilot, along with its corrections, are available online at <http://www.nauticalcharts.noaa.gov/ncd/cdownload.htm>.

The Local Notice to Mariners is available online at <http://www.navcen.uscg.gov/?pageName=lnmDistrict®ion=1>

The 2013 Light List is available online at: <http://www.navcen.uscg.gov/index.php?pageName=lightLists>

Information on Private Aids to Navigation is available at: <http://www.uscg.mil/d1/prevention/NavInfo/navinfo/paton.htm>

Reports of Channel conditions can be found at the Army Corps of Engineers website at:

<http://www.nae.usace.army.mil/Missions/Navigation/MassachusettsProjects.aspx>.

NOAA Tides and Currents can be found at: <http://tidesandcurrents.noaa.gov/>.

The United States Coast Guard Navigation Information Service (NIS), operated by the USCG Navigation Center, is staffed 24 hours a day, 7 days a week. The NIS provides information on the current operational status, effective policies, and general information for GPS and DGPS. The NIS also disseminates Safety Broadcasts (BNM), Local Notice to Mariners (LNM), and the latest Notice Advisory to Navstar Users (NANU). NANU notices can be obtained via email subscription through the USCG Navigation Center website: <http://cgls.uscg.mil/mailman/listinfo/nanu>. In addition, the NIS investigates all reports of degradation or loss of GPS, DGPS or AIS service. Users are encouraged to report all degradation or loss of radio navigation services to the NIS via any of the following: Phone: (703) 313-5900, mailto: tis-sg-nisws@uscg.mil, or on the internet at: <http://www.navcen.uscg.gov>.

REPORT DISCREPANCIES IN AIDS TO NAVIGATION TO THE NEAREST COAST GUARD UNIT

COMMANDER, FIRST COAST GUARD DISTRICT (dpw)
408 Atlantic Avenue, Boston, Massachusetts 02110-3350
Telephone: 1-800-848-3942. Ext. 8356
24 Hour FAX: (617) 223-8291
Hearing impaired (TDD) 1-800-689-0816
<http://www.uscg.mil/d1/prevention/default.asp>

All bearings are in degrees TRUE - All times are in Local Time unless otherwise noted.

ABBREVIATIONS

A through H

ADRIFT - Buoy Adrift
AICW - Atlantic Intracoastal Waterway
AI - Alternating
B - Buoy
BKW - Breakwater
bl - Blast
BNM - Broadcast Notice to Mariner
bu - Blue
C - Canadian
CHAN - Channel
CGD - Coast Guard District

I through O

I - Interrupted
ICW - Intracoastal Waterway
IMCH - Improper Characteristic
INL - Inlet
INOP - Not Operating
INT - Intensity
ISL - Islet
Iso - Isophase
kHz - Kilohertz
LAT - Latitude
LB - Lighted Buoy

P through Z

PRIV - Private Aid
Q - Quick
R - Red
RACON - Radar Transponder Beacon
Ra ref - Radar reflector
RBN - Radio Beacon
REBUILT - Aid Rebuilt
RECOVERED - Aid Recovered
RED - Red Buoy
REFL - Reflective
RRL - Range Rear Light

C/O - Cut Off
 CONT - Contour
 CRK - Creek
 CONST - Construction
 DAYMK/Daymk - Daymark
 DBN/Dbn - Daybeacon
 DBD/DAYBD - Dayboard
 DEFAC - Defaced
 DEST - Destroyed
 DISCON - Discontinued
 DMGD/DAMGD - Damaged
 ec - eclipse
 EST - Established Aid
 ev - every
 EVAL - Evaluation
 EXT - Extinguished
 F - Fixed
 fl - flash
 FI - Flashing
 G - Green
 GIWW - Gulf Intracoastal Waterway
 HAZ - Hazard to Navigation
 HBR - Harbor
 HOR - Horizontal Clearance
 HT - Height

LBB - Lighted Bell Buoy
 LHB - Lighted Horn Buoy
 LGB - Lighted Gong Buoy
 LONG - Longitude
 LNM - Local Notice to Mariners
 LT - Light
 LT CONT - Light Continuous
 LTR - Letter
 LWB - Lighted Whistle Buoy
 LWP - Left Watching Properly
 MHz - Megahertz
 MISS/MSNG - Missing
 Mo - Morse Code
 MRASS - Marine Radio Activated Sound Signal
 MSLD - Misleading
 N/C - Not Charted
 NGA - National Geospatial-Intelligence Agency
 NO/NUM - Number
 NOS - National Ocean Service
 NW - Notice Writer
 OBSCU - Obscured
 OBST - Obstruction
 OBSTR - Obstruction
 Oc - Occulting
 ODAS - Anchored Oceanographic Data Buoy

RELIGHTED - Aid Relit
 RELOC - Relocated
 RESET ON STATION - Aid Reset on Station
 RFL - Range Front Light
 RIV - River
 RRASS - Remote Radio Activated Sound Signal
 s - seconds
 SEC - Section
 SHL - Shoaling
 si - silent
 SIG - Signal
 SND - Sound
 SPM - Single Point Mooring Buoy
 SS - Sound Signal
 STA - Station
 STRUCT - Structure
 St M - Statute Mile
 TEMP - Temporary Aid Change
 TMK - Topmark
 TRLB - Temporarily Replaced by Lighted Buoy
 TRLT - Temporarily Replaced by Light
 TRUB - Temporarily Replaced by Unlighted Buoy
 USACE - Army Corps of Engineers
 W - White
 Y - Yellow

Additional Abbreviations Specific to this LNM Edition: None

SECTION I - SPECIAL NOTICES

This section contains information of special concern to the Mariner.

U.S. Coast Guard to Test Automatic Identification System (AIS) Aids to Navigation (ATON)

In the near future, the U.S. Coast Guard and other authorized agencies and organizations (i.e., U.S. Army Corps of Engineers, Marine Exchange of Alaska) will begin transmitting AIS ATON messages and marine safety information via AIS for testing and evaluation. The exact content, location, and times of these broadcasts will be announced in future Local Notices to Mariners.

See Enclosure for more details.

LNM 04/14

U.S. COAST GUARD MEDIUM FREQUENCY (MF) DISTRESS WATCHKEEPING

Mariners are advised that calls to the U.S. Coast Guard on the international radiotelephone distress frequency 2182 kHz or the Digital Selective Calling (DSC) frequency 2187.5 kHz may not be heard or may be severely degraded. Instead of using 2182 kHz for distress calls, mariners should use high frequency (HF) radiotelephone or DSC in the 4, 6, 8, and 12 MHz distress or calling bands. Additional information concerning U.S. Coast Guard HF watchkeeping is posted on the U.S. Coast Guard's Navigation Center website (<http://www.navcen.uscg.gov/?pageName=cgcommsCall>).

LNM 11/13

RANGE STRUCTURES-Revised-9/12/2012

The U.S. Coast Guard has become aware that Coast Guard information used to depict a rangeline on NOAA Electronic Navigational Charts (ENC) may not be of sufficient accuracy to accurately portray the rangeline on the ENC. Mariners are cautioned that the position of a rangeline as shown on an ENC may not reflect its true position.

The following D1 ranges were highlighted as having potentially questionable positions:

(Charts 13229 13230 13236)
 Cleveland Ledge Channel Range Front Light (LLNR 16085)
 Cleveland Ledge Channel Range Rear Light (16090)

(Charts 12377 12378)
 Connecticut River Range C Front Light 40 (LLNR 22990)
 Connecticut River Range C Rear Light (22995)

Connecticut River Range G Front Light 116 (LLNR 23220)
Connecticut River Range G Rear Light (23225)
Connecticut River Range J Front Light 116 (LLNR 23270)
Connecticut River Range J Rear Light (23275)

The Coast Guard is in the process of investigating this information and if necessary, surveying the ranges to correct the discrepancies.

LNM 03/11

NY/NJ – OPERATION CLEAR CHANNEL IN THE PORT OF NY/NJ

The Operation Clear Channel program is designed to educate boaters about the hazards of navigating small vessels and personal water craft in the confines of the navigational channels used by larger commercial ships that enter and depart the various ports in New York Harbor. The Federal navigation rules, also known as the "Rules of the Road", address this safety concern by giving commercial vessels priority, or right-of-way, over smaller vessels when navigating in narrow channels. Every day an average of 1,400 commercial vessels navigate the waters of the Port of NY/NJ. The masters of these vessels, while always on the lookout, cannot always see smaller vessels when they cross the channels. For safety reasons, recreational boaters should keep a sharp lookout for other vessels and always be prepared to give way to ships constrained in their ability to maneuver when transiting within close proximity to a channel. Coast Guard units in New York and New Jersey actively promote boater awareness through vessel enforcement patrols and visits to local marinas. The Coast Guard targets high-traffic regions, such as Ambrose Channel, Sandy Hook Channel and Raritan Bay, but also includes all of New York Harbor. Mariners interested in increasing their knowledge of boating safety, including the Rules of the Road, should consider a Coast Guard Auxiliary boating safety course. Course information is available online at <http://www.cgaux.org> in the "Take a Boating Course" section, or by calling 1-800-336-BOAT. Further information can be found at <http://thesafeharbor.us/index.html>.

Chart 12327

LNM 06/12

SAFE BOATING VIDEO FOR THE PORT OF NY & NJ

This free online educational resource for safe boating in the Port of NY & NJ is a cooperative effort by the I BOAT NJ program through NJ DOT and USCG Sector NY. The project contains a feature length 26 minute safety video describing the challenges of the multi user Port environment and 5 sub chapters: Paddlers, Motor Boaters, Sailors, Pilots and Operation Clear Channel. Its mission is to increase safety and awareness in the Port and its target is recreational boaters who transit and operate in the Port. It can be found online at <http://thesafeharbor.us/index.html>. Please distribute far and wide.

LNM 03/12

US NOTICE TO MARINERS (NTM)

The US Notice to Mariners provides timely marine safety information for the correction of all US Government navigation charts and publications from a wide variety of sources both foreign and domestic. To ensure the safety of life at sea, the information published in the Notice to Mariners is designed to provide for the correction of unclassified nautical charts, the Unclassified NGA/DLIS Catalog of Hydrographic Products, United States Coast Pilots, NGA List of Lights, USCG Light Lists, and other related nautical publications produced by NGA, NOS and the USCG. The US Notice to Mariners will contain only those chart corrections of interest to ocean going vessels. It is available online at http://msi.nga.mil/NGAPortal/MSI.portal?nfpb=true&pageLabel=msi_portal_page_61. NTM 01 – Special Paragraphs includes information on: America's Waterway Watch program asking those who work, live, or recreate on or near the water to be aware of suspicious activity, The Prudent Mariner and the use of floating Aids to Navigation, and Northern Right Whales.

LNM 02/12

USCG's BOATING SAFETY DIVISION

The U.S. Coast Guard's Boating Safety Division (CG-5422) is dedicated to reducing loss of life, injuries, and property damage that occur on U.S. waterways by improving the knowledge, skills, and abilities of recreational boaters. Additional information, including Recalls and Safety Defects, is available at <http://www.uscgboating.org> and at <http://marineinvestigations.us>.

LNM 02/12

NY-LONG ISLAND-MARINE SAFETY ALERT (MILITARY MUNITIONS)

Recently, a commercial fishing vessel dredging for clams in about 200 FSW in the vicinity of Hudson Canyon, approx. 45 NM south of Long Island, New York reportedly recovered 8 liquid-filled munitions believed to be 75mm projectiles chemical munitions (circa 1919). As a result, a crewman was hospitalized due to chemical exposure, the fishing vessel was quarantined for several days and the catch was destroyed. Incidental recovery of munitions or munition components during commercial and other activities (channel dredging) occurs occasionally. Any such inadvertent recoveries or the intentional recovery or handling (disturbing) of underwater munitions (e.g., during scuba or free diving) can have life-threatening results. Marine growth can make munitions hard to identify. Thus, any munitions, unknown or unidentifiable objects should be carefully, but immediately, discarded overboard and the coordinates of the harvest and re-disposal area promptly reported to the U.S. Coast Guard.

The U.S. Army's 3Rs Explosives Safety Guide (Maritime Industry) is available at the following URL

www.denix.osd.mil/portal/page/portal/UXOSafety/EducationalResources/SafetyGuides. Its core message is, Recognize that an item might be a munition, Retreat by separating personnel and the vessel from the item, and Report the encounter. The safety guide provides useful imagery to assist in recognizing munitions and recommended actions.

Given the recent event, the Coast Guard strongly recommends

- any persons involved in commercial fishing industries and any similar activities, review current "Notices to Mariners" and update their navigational charts to ensure "Explosives Dumping Areas" are properly marked and identified, and that all vessel operators know to give these areas wide berth when towing bottom-contact gear,
- mariners review 3Rs material from the URL above, and
- vessels report any encounters immediately to the National Response Center at 1-800-424-8802 for proper response. (Alternatively, the USCG may be notified via channel 16)

This safety alert is provided for informational purposes only and does not relieve any domestic or international safety, operational, or material requirement. Please visit <http://fishsafe.info> for additional fishing safety information.

LNM 25/10

CODE OF FEDERAL REGULATIONS -TITLE 33 PART 70 - INTERFERENCE WITH OR DAMAGE TO AIDS TO NAVIGATION

No person, shall take possession of or make use of for any purpose, or build upon, alter, deface, destroy, move, injure, obstruct by fastening vessels thereto or otherwise, or in any manner whatever impair the usefulness of any aid to navigation established and maintained by the United States. Recently several offshore NOAA data buoys parted their moorings and became adrift due to excessive strain on the mooring. These navigational data buoys collect valuable on scene weather data for all mariners. These buoys are anchored to the seabed, and some have a watch circle radius of over 1 nautical mile. Once the mooring is parted and the buoy is adrift only certain Coast Guard resources can reset the aid back on its intended station. Coordinating of resources to retrieve the buoy, and place it back on station is time consuming and sometimes take weeks, thus valuable weather information cannot be obtained and relayed to mariners in need of it. Mariners are advised not to interfere with these aids to navigation and report any sightings of vessels tied off to them to the U.S. Coast Guard. Interference with or intentional damage to Aids to Navigation is a misdemeanor and shall be subject to a fine not exceeding the sum of \$500 for each offense (33 CFR 70.0l).

LNM 44/07

NOTICE TO ALL PRIVATE BOATS AT SEA

United States laws and regulations require that ALL private boats arriving from a foreign port or place MUST report to the Bureau of Customs and Border Protection IMMEDIATELY upon their arrival into the United States. Every person entering the United States must be seen in person for immigration purposes by a Customs and Border Protection officer, except those participating in the I-68 -Canadian Border Boat Landing Program-. However, holders of form I-68 are still required to report their arrival into the United States to the Bureau of Customs and Border Protection. Masters and passengers must provide proof of citizenship or legal immigration status, and be in possession of a valid passport and visa, if required. Citizens of countries that are participants in the Visa Waiver Program are not eligible to seek admission to the United States under that program via private vessel. Once your boat is anchored or tied, you are considered to have entered the United States. No one may leave the vessel until Customs and Border Protection grants permission. The only exception to this requirement is to report arrival. In order to fulfill the requirement to immediately report a private boat arrival, the master of the vessel must contact the nearest Customs and Border Protection Office, or if the arrival occurs after business hours, the nearest 24 hour port of entry. Upon reporting, you may be required to proceed to a staffed port for inspection by Customs and Border Protection. Failure to comply with these requirements could result in serious criminal and civil penalties, including seizure of the boat. International mariners are urged to report any suspicious or illegal activity to the Bureau of Customs and Border Protection at 1-800-BE-ALERT.

LNM 29/03

SECTION II - DISCREPANCIES

This section lists all reported and corrected discrepancies related to Aids to Navigation in this edition. A discrepancy is a change in the status of an aid to navigation that differs from what is published or charted.

SECTION III - TEMPORARY CHANGES and TEMPORARY CHANGES CORRECTED

This section contains temporary changes and corrections to Aids to Navigation for this edition. When charted aids are temporarily relocated for dredging, testing, evaluation, or marking an obstruction, a temporary correction shall be listed in Section IV giving the new position.

SECTION IV - CHART CORRECTIONS

This section contains corrections to federally and privately maintained Aids to Navigation, as well as NOS corrections.

This section contains corrective actions affecting chart(s). Corrections appear numerically by chart number, and pertain to that chart only. It is up to the mariner to decide which chart(s) are to be corrected. The following example explains individual elements of a typical chart correction.

Chart Number	Chart Edition	Edition Date	Last Local Notice to Mariners	Horizontal Datum Reference	Source of Correction	Current Local Notice to Mariners
12327	91st Ed.	19-APR-97	Last LNM: 26/97	NAD 83		27/97
Chart Title: NY-NJ-NEW YORK HARBOR - RARITAN RIVER						
Main Panel 2245 NEW YORK HARBOR						
(Temp)	ADD	NATIONAL DOCK CHANNEL BUOY 3			CGD01 at 40-41-09.001N	074-02-48.001W
	Green can					
Corrective Action	Object of Corrective Action				Position	

(Temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (NM) unless otherwise noted.

SECTION V - ADVANCE NOTICES

This section contains advance notice of approved projects, changes to aids to navigation, or upcoming temporary changes such as dredging, etc. Mariners are advised to use caution while transiting these areas.

Approved Project(s)	Project Date	Ref. LNM
None		

Advance Notice(s)

NY-PORT JERSEY

The Coast Guard is making the following change to Aids to Navigation in this waterway on or about 26 February 2014:

Discontinue Port Jersey Channel North Lighted Buoy 4 (LLNR 37172)

Charts: 12327 12333 12334

LNM: 05/14

ME-PORTAND HARBOR-FORE RIVER

Dredging and underwater blasting will begin in February of 2014 at various locations within the 35-foot channel from approximately Blue Star Memorial Highway Route 1 Bridge east to Seventeen-Foot Shoal Lighted Buoy 3. Mariners should periodically consult Local Notice to Mariners for information regarding vessels and equipment that will be on scene, contact information and project dates, as this information will be published as it becomes available.

LNM: 04/14

ME-PORTLAND HARBOR-FORE RIVER

To facilitate dredging, the Coast Guard will temporarily reposition the following buoys at various times toward the edge of the 35-foot channel, approximately 75 feet from their assigned positions, beginning on or about January 25, 2014: Dredged Channel Lighted Buoy 5 (LLNR 7695); Lighthouse Channel Lighted Buoy 1 (LLNR 7710); Lighthouse Channel Lighted Buoy 2 (LLNR 7715); Fore River Buoy 3 (LLNR 7820); Fore River Lighted Buoy 5 (LLNR 7825). Additionally, Fore River Lighted Buoy 6 (LLNR 7830) may be temporarily disestablished during dredging operations. Mariners should consult Local Notice to Mariners to determine if buoys have been temporarily repositioned.

LNM: 04/14

NOTICE OF LIGHTERING OPERATIONS-COTP NEW YORK ZONE

1. In order to increase situational awareness within the port, vessels intending to conduct lightering operations outside of Vessel Traffic Service New York (VTS) managed anchorages (Anchorage 21A, 21B, 21C, 23A, 23B, 24 and 25) shall notify the VTS Watch Supervisor at (718) 354-4088 of the time and place of the planned lightering operation at least four hours in advance of the transfer in accordance with 33 CFR 156.118 (b).
2. Vessels conducting lightering operations within VTS managed anchorages (Anchorage 21A, 21B, 21C, 23A, 23B, 24 and 25) must notify VTS before beginning and at the termination of lightering operations in accordance with 33 CFR 110.155 (d) (16), but four hour advanced notice is not required.
3. According to 33 CFR 156.205, lightering operations means the transfer of a cargo of oil or a hazardous material in bulk from one vessel to another, including all phases of the operation from the beginning of the mooring operation to the departure of the service vessel from the vessel to be lightered, except when that cargo is intended only for use as a fuel or lubricant aboard the receiving vessel.
4. Please contact LCDR Donna Leoce at (718) 354-2353 or Donna.D.Leoce@uscg.mil with any questions regarding this Coast Guard Advisory Notice.

LNM: 28/13

SECTION VI - PROPOSED CHANGES

Periodically, the Coast Guard evaluates its system of aids to navigation to determine whether the conditions for which the aids to navigation were established have changed. When changes occur, the feasibility of improving, relocating, replacing, or discontinuing aids are considered. This section contains notice(s) of non-approved, proposed projects open for comment. SPECIAL NOTE: Mariners are requested to respond in writing to the District office unless otherwise noted (see banner page for address).

Proposed Change Notice(s)

ME and NH- CAPE NEDDICK HARBOR TO ISLES OF SHOALS (Chart 13283)-PORTSMOUTH HARBOR

The Coast Guard is considering making the following changes to Aids to Navigation to this waterway:

CHANGE Portsmouth Harbor (New Castle) Light (LLNR 8330) fog signal to radio activated by the mariner. During times of reduced visibility, mariners are requested to turn their VHF-FM radio to channel 83A/157.175Mhz. By keying their microphone, 5 times consecutively, while on channel 83A, this will activate the fog signal for 45 minutes.

Interested Mariners are strongly encouraged to comment on this proposal in writing, either personally or through their organization. All comments will be carefully considered and are requested prior to 14 MARCH 2014 to complete the process. Refer to Project No. 01-14-013. In addition to the address listed on the front cover, e-mail can be sent to: Jack.J.McLaughlin@uscg.mil and faxes to (617) 223-8291.

NY/NJ-APPROACHES TO NEW YORK-PETITION FOR RULEMAKING

The U.S. Dept of Commerce announces receipt by the National Marine Fisheries Service (NMFS) of a petition for rulemaking to exclude federally-maintained dredged entrance channels and pilot boarding areas (and the immediately adjacent waters) for ports from New York to Jacksonville from vessel speed restrictions to reduce fatal vessel collisions with North Atlantic right whales. NMFS is also requesting comments on the petition and will consider all comments when determining whether to proceed with the suggested rulemaking. DATES: The closing date for comments on the petition is March 3, 2014. The full notice is available at <http://www.gpo.gov/fdsys/pkg/FR-2014-01-30/pdf/2014-01734.pdf>.

LNLM: 05/14

RI-BLOCK ISLAND SOUND AND APPROACHES-POINT JUDITH HARBOR OF REFUGE-Revised

The Coast Guard is considering making the following changes to Aids to Navigation to this waterway:

CHANGE Point Judith Harbor of Refuge West Entrance Light 3 (LLNR 18505) fog signal to radio activated by the mariner. During times of reduced visibility, mariners are requested to turn their VHF-FM radio to channel 83A/157.175Mhz. By keying their microphone, 5 times consecutively, while on channel 83A, this will activate the fog signal for 45 minutes.

Interested Mariners are strongly encouraged to comment on this proposal in writing, either personally or through their organization. All comments will be carefully considered and are requested prior to 28 FEBRUARY 2014 to complete the process. Refer to Project No. 01-14-009. USCG-AIR DRAFT PETITION

The US Coast Guard seeks public comment on a petition it received requesting the Coast Guard to initiate a rulemaking to address the problem of air draft (overhead clearance) accidents. Comments should be submitted by 20 March 2014. 78 Fed. Reg. 77027 (December 20, 2013) <http://www.gpo.gov/fdsys/pkg/FR-2013-12-20/pdf/2013-30259.pdf>.

LNM: 52/13

NY/NJ-ARTHUR KILL

The US Coast Guard promulgated a temporary interim rule amending its prior temporary interim rule establishing a regulated navigation area (RNA) on navigable waters of the Arthur Kill in New York and New Jersey. The first temporary interim rule was prohibited vessels from approaching closer than 150 feet from all US Army Corps of Engineers (USACE) drilling and blasting equipment and extended through April 1, 2014. This second temporary interim rule allows the Coast Guard to suspend enforcement of some RNA requirements when they are found to be impracticable and unnecessary. The amendments come into effect immediately. Comments on the amendments should be submitted by April 1, 2014. 77 Fed. Reg. 1023 (January 9, 2012) <http://www.gpo.gov/fdsys/pkg/FR-2012-01-09/pdf/2012-108.pdf>.

LNM: 05/14

MA-CAPE COD CANAL

Dolphin repairs are being done at the Cape Cod Canal Power Plant until approximately March 14, 2014. The hours of operation are Monday - Friday, 6:00 am - 6:00pm. On scene is a barge CHER, push boat JONAH & skiff. Mariners are advised to proceed with caution and to transit at their slowest safe speed to minimize wake.

LNM: 05/14

NY-SHINNECOCK INLET

Dredging is being done east of Shinnecock Inlet until approximately March 31, 2014. The work is being done 7 days a week, 24 hours a day. On scene is the dredge ILLINOIS & tugs R. L. ENTERKIN & LAYLA RENEE that are monitoring VHF-FM channels 5 & 13.

LNM: 05/14

NY-UPPER NEW YORK BAY-GOWANUS CANAL

NYC DEP has installed oil absorbent boom and turbidity curtains, from shoreline to shoreline, north of the Union Street Bridge (mile 2.1) through Jun 30, 2014. 2,500 feet of aeration pipeline has been installed at the north end of Gowanus Canal, north of 4th street, and is marked by buoys. Mariners should plan accordingly.

MA-CAPE COD CANAL-Temporary Daily Closure of Cape Cod Canal for Railroad Bridge Repairs (REVISED 04/14)

Mechanical maintenance work on the vertical lift (railroad) bridge across the Cape Cod Canal will be conducted daily between 7 a.m. and 5 p.m. Mariners should expect the bridge to remain in the down position and the Canal to be closed during these times. Due to unavoidable delays, the Cape Cod Canal will remain closed daily from 7 a.m. to 5 p.m. through Friday, February 7, 2014, though the Canal may be open on Saturday, February 1 and/or Sunday, February 2 if repair operations permit. For more information or to determine the Canal's status, mariners should contact Canal Marine Traffic Control on VHF channels 13, 14, or 16, or by telephone at 508-759-4431 ext. 500.

LNM: 04/14

ME-PORTLAND HARBOR-FORE RIVER

Lobster relocation fishing is being conducted in advance of dredging from approximately Blue Star Memorial Highway Route 1 Bridge east to Seventeen-Foot Shoal Lighted Buoy 3. Mariners should maintain a look-out for high concentrations lobster pot buoys and exercise caution when transiting this area. For information, contact Mr. Thomas Dobbins, Portland Harbor Commission at 207-831-9101.

U.S. Coast Guard to Test Automatic Identification System (AIS) Aids to Navigation (ATON)

In the near future, the U.S. Coast Guard and other authorized agencies and organizations (i.e., U.S. Army Corps of Engineers, Marine Exchange of Alaska) will begin transmitting AIS ATON messages and marine safety information via AIS for testing and evaluation. The exact content, location, and times of these broadcasts will be announced in future Local Notices to Mariners.

AIS is an internationally adopted radio communication protocol that enables the autonomous and continuous exchange of navigation safety related messages amongst vessels, lifeboats, aircraft, shore stations, and aids to navigation (AIS ATON). AIS ATON stations broadcast their presence, identity (9-digit Marine Mobile Service Identity (MMSI) number), position, and status at least every three minutes or as needed. These broadcasts can originate from an AIS station located on an existing physical aid to navigation (Real AIS ATON) or from another location (i.e., AIS Base Station). An AIS Base Station signal broadcasted to coincide with an existing physical aid to navigation is known as a Synthetic AIS ATON. An electronically charted, but non-existent as a physical aid to navigation, is identified as a Virtual AIS ATON. The latter two can be used to depict an existing aid to navigation that is off station or not watching properly or to convey an aid to navigation that has yet to be charted. All three variants can be received by any existing AIS mobile device, but they would require an external system for their portrayal (i.e., AIS message 21 capable ECDIS, ECS, radar, PC). How they are portrayed currently varies by manufacturer, but the future intention is for the portrayal to be in accordance with forthcoming International Standards (i.e., IEC 62288 (Ed. 2), IHO S-4 (Ed. 4.4.0)).

Mariners capable of receiving and displaying these test AIS messages are encouraged to provide feedback and report any anomalies to the USCG NAVCEN Website: <http://www.navcen.uscg.gov> | Contact Us Tab | Subject: AIS | Category: AIS Testing.

MA – VINEYARD SOUND
Vicinity of West Chop & Middle Ground

NSTAR Emergency Cable Repair

A contractor for NSTAR electric utility, Caldwell Marine, will be conducting emergency submarine power transmission cable repair operations from approximately January 29 to February 14, 2014, in Vineyard Sound in the vicinity of 41° 29.44N /070° 36.38W (north of West Chop, vicinity of Middle Ground). Operations will be conducted seven days per week, 24 hours per day, during this period.

The vessels on location will be the tug NAVIGATOR and two barges, a 180 foot deck barge and a 160 foot dive barge. The 180 foot deck barge will be set in a five-point mooring with white surface buoys set out approximately ½ Nautical Mile (NM) from the barge. The 160 foot dive barge will be set on a four-point mooring with white surface buoys set out approximately ½ NM from the barge. The operations will be carried out on a 24-hour schedule. All barges, mooring buoys and the tug NAVIGATOR will be properly lit for nighttime operations. During the operation the barges will be unable to move from their respective moorings under normal circumstances. All passing vessels are requested to maintain a minimum separation of ½ NM from the barges and tug NAVIGATOR.

Tug NAVIGATOR will be monitoring VHF channels 16 and 13.

The on-scene 24-hour point of contact is Mr. Paul Larrabee of Caldwell Marine who may be reached at 732-620-4214.

Mariners are urged to use extreme caution when navigating in the vicinity of Middle Ground, Vineyard Sound, during these emergency cable repair operations.

See chartlet next page.

MAINE – DAMARISCOTTA, SHEEPSCOT AND KENNEBEC RIVERS – Bridge Construction and Channel Restriction – Construction of the new Richmond Dresden highway bridge, mile 26.2, across the Kennebec River between Richmond and Dresden is underway and will continue through **September 2016**. In addition, two work barges 45' x 120' and a 55' x 100' will be situated at various locations in the west channel outside the main navigation channel. All mariners are required to transit the area at no wake speed, not to exceed 6 knots. Working hours are Monday through Friday, 6 a.m. through 4 p.m. Mariners should exercise caution while transiting the area.
Chart 13293 LNM 05/14 (CGD1)

MAINE AND NEW HAMPSHIRE- PORTSMOUTH TO DOVER AND EXETER – PISCATAQUA RIVER – Bridge construction and Channel Closure – Bridge construction to facilitate replacement of the existing Memorial (US 1) Bridge across the Piscataqua River, mile 3.5, between Portsmouth, New Hampshire and Kittery, Maine, is ongoing and will continue through **July 31, 2014**. Two crane barges, each 180 x 60 and one 110' x 40' materials barge will be situated at various locations within the navigable channel during the installation of a new bridge protective fender system. The barges will move out of the channel upon request by calling the bridge via marine radio VHF FM Channel 13 & 16 or by calling the contractor, Archer Western, Mr. Steve DeIGrosso at (617) 592-0184. Working hours are 7 a.m. through 7 p.m., Monday through Saturday. Mariners should exercise caution while transiting the area.
Chart 13285 LNM 05/14 (CGD1)

MAINE AND NEW HAMPSHIRE –CAPE NEDDICK HARBOR TO ISLES OF SHOALS - SAGAMORE CREEK – Bridge Construction – Bridge replacement of the Route 1A highway bridge, mile 0.8, across Sagamore Creek at Portsmouth, New Hampshire is underway and will continue through November 30, 2015. Two 30' x 40' work barges will be situated at various locations during construction and may be in the main navigation channel during working hours. The barges can move upon request by calling the contractor Reed & Reed, Mr. Randy Hale at 207-837-5499 or Mr. Ted Clark at 207- 798-1766. Working hours are 6:30 a.m. to 5 p.m., Monday through Friday. Mariners should exercise caution while transiting the area.
Chart 13285 LNM 05/14 (CGD1)

MASSACHUSETTS-BLYNMAN CANAL-ANNISQUAM RIVER- Bridge Replacement- The Coast Guard has received a request from the Massachusetts Bay Transportation Authority (MBTA) for a U. S. Coast Guard (USCG) Bridge Permit for approval to replace the Gloucester Railroad Draw Bridge across Annisquam River, 0.7 miles above the mouth of the water. The proposed work consists of replacing the existing single leaf trunnion Bascule Bridge with a single span concrete and steel bascule bridge. It will provide a horizontal clearance of 40 feet and a vertical clearance of 18.21 feet in the closed position and unlimited clearance in open position. Comments on this request should be forwarded to the office of the Commander (dpb), First Coast Guard District, Battery Park Building, NY 10004-1466 through **February 24, 2014**. The public notice which describes the proposal in detail can be viewed at: <http://www.uscg.mil/d1/prevention/bridges.asp>. Copies of the public notice which describes the proposal in detail can be obtained by writing to the above address or calling 212-668-7165.
Chart 13281 LNM 05/14 (CGD1)

MASSACHUSETTS – BUZZARDS BAY - COHASSET NARROWS – Bridge Construction – Bridge construction to replace the Route 6 highway bridge at mile 0.6 across Cohasset Narrows at Bourne is underway and will continue through **October 2014**. A 90' x 38' crane barge will be located at the bridge at all times. One half of the 55 foot main channel will be open to navigation at all times. Working hours will be 7 a.m. to 4 p.m. Monday through Friday. Mariners should exercise caution while transiting the area.
Chart 13218 LNM 05/14 (CGD1)

MASSACHUSETTS – NEWBURYPORT HARBOR AND PLUM ISLAND SOUND – MERRIMACK RIVER – Bridge construction – New bridge construction of the Route 97 & 113 (Bates) Bridge across the Merrimack River at mile 16.5, between Groveland and Haverhill is underway and continue through **June 30, 2014**. Turbidity curtains and cofferdams will be located at various positions in the waterway. The main navigation will remain open to vessel traffic during the boating season from April 15 to November 15 each construction year. During the winter months the channel may be blocked at various times. Vessel transits can be coordinated by calling Cianbro Corporation at 978-241-9168. Mariners should exercise caution while transiting the work area.
Chart 13282 LNM 05/14 (CGD1)

MASSACHUSETTS – NEWBURYPORT HARBOR AND PLUM ISLAND SOUND – MERRIMACK RIVER – Bridge Construction – Construction of the new Whittier I-95 Bridge across the Merrimack River, mile 6.0, between Newburyport and Amesbury, Massachusetts, will begin on **July 8, 2013** and will continue through the fall of **2016**. During construction, tug and barges will be conducting operations in both the federal channel and the Steamboat Channel in the area of the bridge. The channels may be reduced in width at times but will remain open for all marine traffic; however it is recommended that concerned traffic hail the tug Katahdin via marine radio VHF FM channel 16/13 before transiting the area. Working hours will be 6 a.m. through 6 p.m., Monday through Friday. Mariners are urged to transit at slowest safe speed to minimize wake and to use extreme caution when transiting the construction site.
Chart 13282 LNM 05/14 (CGD1)

MASSACHUSETTS – NEWBURYPORT HARBOR AND PLUM ISLAND SOUND – MERRIMACK RIVER – Bridge replacement – The Coast Guard has received a request from the Massachusetts Department of Transportation for approval to amend Bridge Permit 4-12-1 dated **23 August 2012** authorizing replacement of the Whittier (I-95) Bridge, a fixed highway bridge, over the Merrimack River, mile 5.86, between Newburyport and Amesbury, MA. This new proposal requests revised design plan sheets with minor changes to previously approved final vertical and horizontal clearance and moderate reductions in horizontal clearances through both the federal navigation and Steamboat channels during construction which is currently underway. Comments on this request should be forwarded to the office of the Commander (dpb), First Coast Guard District, Battery Park Building, NY 10004-1466 through

February 6, 2014. The public notice which describes the proposal in detail can be viewed at: <http://www.uscg.mil/d1/prevention/bridges.asp>. Copies of the public notice which describes the proposal in detail can be obtained by writing to the above address or calling 212-668-7165.
Chart 13282 LNM 05/14 (CGD1)

MASSACHUSETTS – BOSTON HARBOR – CHARLES RIVER - Bridge Construction – Bridge construction at the North Washington Street Bridge, mile 0.0, across the Charles River between Boston and Charlestown, Massachusetts will commence **July 8, 2013** and continue through **May 30, 2014**. A 20' x 40' self propelled work barge will be located at various positions in one or the other of the two navigated channels during construction. Mariners are advised to use the clear channel to transit the bridge. The barge will be located outside the navigation channel during off hours. Working hours will be 7 a.m. through 4 p.m., Monday through Friday. Mariners should exercise caution when transiting the bridge.
Chart 13272 LNM 05/14 (CGD1)

MASSACHUSETTS – BOSTON HARBOR – CHARLES RIVER – Bridge Construction – Bridge construction is ongoing and will continue through **May 30, 2017**, at the Longfellow Bridge across the Charles River, mile 1.5, between Boston and Cambridge, Massachusetts. Work barges will be deployed at various locations outside the main navigation channel rehabilitating the support piers at the bridge. Working hours are 6 a.m. to 5 p.m. Monday through Saturday. Any questions concerning the bridge should be directed to the contractor, J.F. White, Mr. Greg Labrum, via land line at 508-879-4700 or cell phone at 617-719-7150. Mariners should exercise caution when transiting the work area.
Chart 13272 LNM 05/14 (CGD1)

MASSACHUSETTS - BOSTON HARBOR - WEYMOUTH - FORE RIVER - Bridge Construction – Bridge construction at the new Route 3A highway bridge, mile 0.0, across the Weymouth Fore River between Quincy and Weymouth, Massachusetts is ongoing and will continue through **March 2016**. A 30' x 90' barge will be located on the Quincy side of the main channel and a 34' x 110' barge will be located on the Weymouth side of the main channel, both outside the federal channel, to protect the construction area. Additional crane barges may be placed within the Federal channel occasionally to allow a safe working radius for the crane. The barges will be moved immediately for all commercial deep draft and barge transits. The contractor will be monitoring anticipated marine traffic and will fully remove all barges from the channel as needed. Working hours will be 7 a.m. through 4:30 p.m., Monday through Friday. The barges can be contacted on VHF-FM Channel 13 or by calling the contractor Mr. Jim Jones at 617-719-7174. Mariners should exercise caution while transiting the area.
Chart 13270 LNM 05/14 (CGD1)

MASSACHUSETTS - BOSTON HARBOR - MYSTIC RIVER - Bridge Construction & Vertical Clearance Reduction - Bridge painting is underway at the Tobin Memorial Bridge, mile 0.1, across the Mystic River between Boston and Chelsea, Massachusetts. A paint containment platform will reduce vertical clearance by 2 feet under the bridge across the main shipping channel from **September 1, 2012** through **January 2014**. Working hours will be 7 a.m. to 7 p.m. Monday through Saturday. Mariners should exercise caution while transiting the area.
Chart 13272 LNM 05/14 (CGD1)

MASSACHUSETTS - OAK BLUFFS HARBOR – LAGOON POND – Bridge Construction – Phase one construction of the permanent replacement of the Tisbury Oak Bluffs (Beach Road) bridge, mile 0.0, across Lagoon Pond at Martha's Vineyard, Massachusetts, will commence on **November 1, 2013** and continue through **December 1, 2015**. Three construction work barges (50' x 150') (30' x 130') (30' x 60') will be located at various positions throughout the construction period but will not block the navigation channel at any time. Mariners should exercise caution while transiting the area.
Chart 13237 LNM 04/14 (CGD1)

RHODE ISLAND – NARRAGANSETT BAY – EAST PASSAGE – Bridge Painting & Vertical Reduction – Bridge painting operations at the Newport Pell Bridge, mile 4.0, across Narragansett Bay East Passage, at Jamestown, Rhode Island, will commence on **April 15, 2013** and continue through **November 30, 2015**. A 265' x 48' barge will be located at various locations outside the navigable channel. The vertical clearance will be reduced by 8 feet under the approach spans to facilitate a work platform. The vertical clearance in the main navigation channel will not be reduced at any time. Working hours will be 7 a.m. and 7 p.m., Monday through Friday.
Chart 13221 LNM 05/14 (CGD1)

RHODE ISLAND – NARRAGANSETT BAY – BARRINGTON RIVER – Bridge Construction – New bridge construction is underway and will continue through **February 2014**, at the Massasoit Avenue Bridge across the Barrington River, mile 1.9, at Barrington, Rhode Island. Working hours will be 6 a.m. through 6 p.m., Monday through Friday. Two work barges (20' x 40') (10' x 20') will be operating at various locations throughout the construction. Divers may be in the water, at various times and will be identified by the universal diver's flag. Should you need to transit while dive operations are underway or work barges are near the navigation channel you may contact the RIDOT Resident Engineer Mr. Michael Swift at (401) 265-5281 or the contractor, Cardi Corporation, Mr. Steven Morin, project superintendent at (401) 641-8876. Concerns regarding navigation issues may be addressed to Mr. Edward G. LeBlanc at Coast Guard Sector Southeastern New England at (401) 435-2351. Mariners should exercise caution while transiting the area.
Charts 13221 and 13224 LNM 05/14 (CGD1)

CONNECTICUT – LONG ISLAND SOUND - LONG ISLAND SOUND TO DEEP RIVER – CONNECTICUT RIVER – Bridge Rehabilitation – Repairs to the Route 3 (Putnam) Bridge, mile 47.4 across Connecticut River, between Wethersfield and Glastonbury, Connecticut is in progress. All work will be done on top of the bridge. The entire project will be completed by **May 31, 2015**. Mariners are advised to transit the area with caution.
Chart 12375 LNM 05/14 (CGD1)

CONNECTICUT - LONG ISLAND SOUND – LONG ISLAND SOUND TO DEEP RIVER – CONNECTICUT RIVER – Bridge Inspections – Inspections to the Route 82 Bridge at mile 16.8, across Connecticut River at East Haddam, Connecticut are in progress. There will not be any obstruction in the waterway. All inspections will be performed on top of the bridge and will not affect operation of the bridge. The inspections are to be completed by **February 28, 2014**.
Chart 12375 LNM 05/14 (CGD1)

CONNECTICUT – LONG ISLAND SOUND – DUCK ISLAND TO MADISON REEF – CLINTON HARBOR - HAMMONASSET RIVER – Painting and Steel Repairs – Phase I of the painting and steel repairs to the Route 1 Bridge, mile 2.4 across Hammonasset River will commence on **April 1, 2013** through **November 30, 2013**. There will be temporary platform installed under the bridge and will reduce the vertical clearance by 5 feet. Phase II of the repairs will start on **April 1, 2014** and to be completed by **August 1, 2014**. Mariners are advised to transit the area with caution.
Chart 12374 LNM 05/14 (CGD1)

CONNECTICUT – LONG ISLAND SOUND - CONNECTICUT RIVER – FARMINGTON RIVER – QUINNIPIAC RIVER – Replacement of

Signal/Communication Cables – Replacement of the cables for the Amtrak Bridges across Connecticut River, Farmington River and Quinnipiac River are in progress. There will not be any equipment in the channel. This project is to be completed by **October 31, 2014**.
Charts 12371/12375 LNM 05/14 (CGD1)

CONNECTICUT – LONG ISLAND SOUND – WATCH HILL TO NEW HAVEN HARBOR - Bridge Modification – Construction to the Cut in Two Island Pedestrian Bridge across the Long Island Sound (The Thimbles) at mile 0.0 is in progress and will be completed by **July 2014**. There will be barges operating IVO the channel. Mariners are advised to exercise caution when transiting the area.
Charts 12372 LNM 05/14 (CGD1)

CONNECTICUT – LONG ISLAND SOUND – NEW HAVEN HARBOR– QUINNIPIAC RIVER – Channel Restrictions & Closure – Replacement of the I-95 Bridge, mile 0.1, across Quinnipiac River is in progress through **December 2014**. There will be barges operating in the navigation channel for the demolition of the existing NB Bridge. An unobstructed 80ft of navigation channel is available at all times. Temporary shielding is installed under the existing NB Bridge and is reduced the vertical clearance by 7 feet below the low steel. The barges and temporary shielding are authorized through **December 31, 2013**. Mariners are advised to transit the area with extreme caution and reduce wake.
Chart 12371 LNM 05/14 (CGD1)

CONNECTICUT – LONG ISLAND SOUND – NEW HAVEN HARBOR– QUINNIPIAC RIVER – Painting and Steel Repairs – Phase I of the painting and steel repairs to the I-91 Bridge, mile 2.0 across Quinnipiac River will commence on **April 1, 2013** through **November 30, 2013**. There will not be any obstruction in the navigation channel. Phase II of the repairs will start on **April 1, 2014** and to be completed by **August 1, 2014**. Mariners are advised to transit the area with caution.
Chart 12371 LNM 05/14 (CGD1)

CONNECTICUT – LONG ISLAND SOUND – HOUSATONIC RIVER AND MILFORD HARBOR – HOUSATONIC RIVER – Fender and Superstructure Repairs – Repairs to the Metro-North Devon Bridge at mile 3.9 across Housatonic River at Stratford, Connecticut is in progress. A 22ft by 60ft barge and a tug boat are operating in the navigation channel through **October 30, 2013**. Mariners requiring full horizontal clearance can contact contractor via marine radio VHF CH 13/16. The entire project will be completed by **April 30, 2015**. Mariners are advised to transit the area with caution and plan their transits accordingly.
Chart 12370 LNM 05/14 (CGD1)

CONNECTICUT – LONG ISLAND SOUND – SHERWOOD POINT TO STAMFORD HARBOR – SAUGATUCK RIVER – Timber Ties Replacement – Construction to the Metro North Saga RR Bridge across Saugatuck River at mile 1.1 is in progress. All work will be performed on top of the bridge. The project is to be completed by **March 31, 2014**.
Chart 12368 LNM 05/14 (CGD1)

NEW YORK – LONG ISLAND SOUND – HEMPSTEAD HARBOR TO TALLMAN ISLAND – HUTCHINSON RIVER – Emergency Repairs – Repairs of the Hutchinson River Parkway Bridge across Hutchinson River at mile 0.9 is in progress. A 90ft barge will be operating IVO the bridge and will not affecting operation of the bridge. Mariners requiring full horizontal clearance can contact the contractor via marine radio VHF-FM Ch 13/16. Mariners are advised to exercise caution and reduce wake when transiting the area. The repairs are to be completed by **January 31, 2014**.
Chart 12366 LNM 05/14 (CGD1)

NEW YORK – SHINNECOCK BAY TO EAST ROCKAWAY INLET – FIRE ISLAND INLET – Bridge Rehabilitation – Rehabilitation to the Robert Moses Causeway across Fire Island Inlet at mile 4.0 is in progress. Barges measuring 120ft by 40ft will be operating outside the channel. From **July 2013 through July 2014** platforms under the girder spans will reduce the vertical clearance by three and a half feet. From **March 2014 through Oct 2015** platforms will reduce the vertical clearance in the main navigational channel and flanking spans by six feet three inches. The platforms installed under the navigation channel are limited from green navigation light to one side of the pier only, the other half of navigation channel remains free of obstruction at all times. Working barges are operating outside the main navigation channel. Mariners are advised to exercise extreme caution when transiting the area. All work will be completed by **October 2015**.
Chart 12352 LNM 05/134 (CGD1)

NEW YORK – SHINNECOCK BAY TO EAST ROCKAWAY INLET – QUOGUE CANAL – Notice of Temporary Deviation from Regulations – The Commander, First Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the Quogue Bridge, mile 1.1, across Quogue Canal, in Southampton, New York. Under this temporary deviation, the bridge will keep one of the two movable spans in the closed position from **October 1, 2013 through March 28, 2014**. A barge will be operating under the closed span blocking one half of the channel from **October 1, 2013 through March 28, 2014**. The entire project will be completed by **October 2014**. Mariners are advised to exercise caution when transiting the area and plan their transits accordingly.
Chart 12352 LNM 05/14 (CGD1)

NEW YORK – SHINNECOCK BAY TO EAST ROCKAWAY INLET – SLOOP CHANNEL – Temporary Mooring Piles – Bridge replacement to the Wantagh State Parkway Bridge across Sloop Channel, mile 15.4, at Jones Beach, New York has been completed. There are few temporary mooring piles with white lights remain outside the main navigation channel to be removed by spring **2014**. Mariners are advised to exercise caution when transiting the area.
Chart 12352 LNM 05/14 (CGD1)

NEW YORK – JAMAICA BAY AND ROCKAWAY INLET – NORTH CHANNEL – FRESH CREEK – Bridge Replacement – Replacement of the Shore Parkway Bridge across Fresh Creek at mile 0.4 is in progress. Barges are operating in and out of the navigable channel during construction. A minimum of 15ft horizontal clearance will be free of obstruction at all times. Mariners can contact the contractor via marine radio VHF-FM 13/16 to have work equipment moved out of the channel. This project is scheduled to be completed by **Spring 2014**. Mariners are advised to plan ahead and transit the area with extreme caution.
Chart 12350 LNM 05/14(CGD1)

NEW YORK – JAMAICA BAY AND ROCKAWAY INLET – PAERDEGAT BASIN – Bridge Replacement – Replacement of the Shore Parkway Bridge across Paerdegat Basin at mile 0.2 is in progress. A minimum of 50ft horizontal clearance and 27ft vertical clearance in MHW will be available through the navigation channel. Barges are operating in and out of the navigable channel during construction. Mariners can contact the contractor via marine radio VHF-FM 13/16 to have work equipment moved out of the channel. This project is scheduled to be completed by **Spring 2014**. Mariners are advised to plan ahead and transit the area with extreme caution.
Chart 12350 LNM 05/14 (CGD1)

NEW YORK – JAMAICA BAY AND ROCKAWAY INLET – GERRITSEN INLET – Bridge Replacement – Replacement of the Shore (Belt)

Parkway Bridge across Gerritsen Inlet at mile 0.0 is in progress. Barges are operating in and out of the navigable channel during construction. A minimum of 65ft horizontal clearance will be free of obstruction through the navigation channel at all times. Mariners can contact the Community Liaison Jonathan Joseph at 347-702-6430 extension 114 or cell 347-203-9530 for any construction information. This project is scheduled to be completed by **October 30, 2017**. Mariners are advised to plan ahead and transit the area with extreme caution.
Chart 12350 LNM 05/14 (CGD1)

NEW YORK - NEW YORK HARBOR – EAST RIVER - HARLEM RIVER – Bridge Rehabilitation – Rehabilitation of the Alexander Hamilton Bridge across Harlem River at mile 4.5 is in progress. Temporary scaffolding which reduces the vertical clearance by approximately 3ft. under the bridge has been installed to prevent debris from falling into the waterway. A small safety Boat (skiff) will be operating under the bridge. This project is expected to be completed by end of March **2014**. Mariners are advised to proceed with caution and reduce wake when transiting the area.
Chart 12342 LNM 05/14 (CGD1)

NEW YORK – NEW YORK HARBOR - EAST RIVER – Bridge Painting/Scaffolding – Painting of Throgs Neck Bridge across East River at mile 15.8 is in progress. Scaffolding installed under the bridge reduces vertical clearance by approximately 3 feet. Scaffolding will remain under the bridge through mid **2014**. In addition, a tug and barge measuring an 82 ft by 37ft and 110ft by 34ft barge are operating outside the channel. Mariners are advised to reduce wake and exercise caution when transiting the area.
Chart 12339 LNM 05/14 (CGD1)

NEW YORK- NEW YORK HARBOR – EAST RIVER – Bridge Rehabilitation–Rehabilitation of cables and suspenders at the Manhattan Bridge across the East River at mile 1.1 is in progress. Contractor is installing a60 ft X 9 ft scaffolding under the span reducing the available vertical clearance by approx. 3 feet. This project is expected to be completed by the end of **2014**. Mariners are advised to exercise caution when transiting the area.
Chart 12342 LNM 05/14 (CGD1)

NEW YORK- NEW YORK HARBOR –EAST RIVER –Bridge Painting & Rehabilitation –Painting/approach rehabilitation of the Brooklyn Bridge across the East River, mile 0.8, is in progress. Contractor has installed scaffolding from the Manhattan side through mid-channel. Scaffolding reduces the available vertical clearance under the bridge by approx. 6 feet. The scaffolding will be marked by three red lights, one at each end of the scaffolding and one at the center. The remainder of the channel between mid-channel and the Brooklyn side will provide full vertical clearance and is clear of any obstructions, however, at times the movable platforms will be in use and occupy part of the Brooklyn half channel, the traveller platform can be move for passage of large vessels, with a one hour advance notice. Contact Coast Guard Vessel Traffic Service at 718-354-4088, for information if the movable traveller is in use. This project is expected to be completed by end of **2014**. Mariners are advised to exercise caution when transiting the area and large vessels are reminded to transit the Brooklyn half of the channel.
Chart 12335 LNM 05/14(CGD1)

NEW YORK – NEW YORK TO WAPPINGER CREEK - HUDSON RIVER – Regulated Navigation Area– the Coast Guard has established a Regulated Navigation Area (RNA) for the navigable waters of the Hudson River surrounding the Tappan Zee Bridge. This temporary interim rule allows the Coast Guard to enforce speed and wake restrictions and prohibit all vessel traffic through the RNA during bridge replacement operations, both planned and unforeseen, that could pose an imminent hazard to persons and vessels operating in the area. This rule is necessary to provide for the safety of life in the regulated area during the construction of the bridge. This rule is effective and has been enforced since **September 15, 2013** until December 31, 2018. Comments and related material pertaining to the RNA will be accepted and reviewed by the Coast Guard through **December 31, 2018**.

If you have questions on this rule call or e-mail Chief Craig D. Lapiejko, Waterways Management Branch at First Coast Guard District, telephone: 617-223-8385, e-mail: craig.d.lapiejko@uscg.mil; or LT Hannah Eko, Coast Guard Sector New York Waterways Management Division, U.S. Coast Guard; telephone: 718-354-4114, e-mail: hannah.o.eko@uscg.mil. If you have questions on viewing or submitting material to the docket, call Barbara Hairston, Program Manager, Docket Operations, telephone (202) 366-9826.

§165.T01-0174 Regulated Navigation Area-Tappan Zee Bridge Construction Project, Hudson River: South Nyack and Tarrytown, NY

(a) *Boundaries*. The following is a regulated navigation area; all waters north of a line drawn from the following approximate positions: 41°04'17.37"N, 073°55'13.16"W on the western shoreline; thence to 41°04'10.97"N, 073°55'05.05"W; thence to 41°04'10.03"N, 073°55'03.42"W; thence to 41°04'07.14"N, 073°54'54.48"W; thence to 41°04'05.30"N, 073°54'43.18"W; thence to 41°04'04.72"N, 073°52'22.52"W; thence to 41°04'02.52"N, 073°52'16.13"W; thence to 41°03'59.74"N, 073°52'10.83"W; thence to a point on the eastern shoreline at 41°03'54.39"N, 073°52'03.26"W; and all waters south of a line drawn from the following approximate positions: 41°04'34.79"N, 073°55'03.26"W on the western shoreline; thence to 41°04'33.62"N, 073°55'01.52"W; thence to 41°04'26.14"N, 073°54'53.96"W; thence to 41°04'23.76"N, 073°54'50.57"W; thence to 41°04'21.58"N, 073°54'43.77"W; thence to 41°04'20.96"N, 073°52'20.17"W; thence to 41°04'20.31"N, 073°52'15.83"W; thence to 41°04'16.76"N, 073°52'04.52"W; thence to a point on the eastern shoreline at 41°04'13.84"N, 073°51'59.44"W.

(b) Regulations.

- (1) The general regulations contained in 33 CFR 165.10, 165.11, and 165.13 apply within the RNA.
- (2) In accordance with the general regulations, entry into, anchoring, or movement within the RNA, during periods of enforcement, is prohibited unless authorized by the Captain of the Port New York (COTP) or his on-scene representative. The "on-scene representative" of the COTP is any Coast Guard commissioned, warrant or petty officer who has been designated by the COTP to act on the COTP's behalf. The on-scene representative may be on a Coast Guard vessel; New York State Police, or other designated craft; or may be on shore and will communicate with vessels via VHF-FM radio or loudhailer. Members of the Coast Guard Auxiliary may be present to inform vessel operators of this regulation.
- (3) During periods of enforcement, entry and movement within the RNA is subject to a "Slow-No Wake" speed limit. Vessels may not produce a wake and may not attain speeds greater than five knots unless a higher minimum speed is necessary to maintain steerageway when traveling with a strong current. All vessels must proceed through the area with caution and operate in such a manner as to produce no wake.
- (4) During periods of enforcement, all persons and vessels must comply with all orders and directions from the COTP or the COTP's on-scene representative.
- (5) During periods of enforcement, upon being hailed by a Coast Guard vessel by siren, radio, flashing light or other means, the operator of the vessel must proceed as directed.
- (6) Vessel operators desiring to enter or operate within the regulated area when it is closed shall contact the COTP or the on-scene representative via VHF channel 16 or 718-354-4353 (Sector New York Command Center) to obtain permission.
- (7) Notwithstanding anything contained in this section, the Rules of the Road (33 CFR part 84—Subchapter E, inland navigational rules) are still in effect and must be strictly adhered to at all times.

(c) Enforcement Periods. This regulation is enforceable 24 hours a day from 5:00 a.m. on September 15, 2013 until 11:59 p.m. on December 31, 2018.

(1) Notice of suspension of enforcement: If enforcement is suspended, the COTP will cause a notice of the suspension of enforcement by all appropriate means to be given the widest publicity among the affected segments of the public. Such means of notification may include, but are not limited to, Broadcast Notice to Mariners and Local Notice to Mariners. Such notification will include the date and time that enforcement is suspended as well as the date and time that enforcement will resume.

(2) Violations of this RNA may be reported to the COTP at 718-354-4353 or on VHF-Channel 16.

NEW YORK – NEW YORK TO WAPPINGER CREEK - HUDSON RIVER – Temporary Navigational Lights - Temporary navigational lights was be relocated as per the diagram below at the existing Tappan Zee Bridge across the Hudson River at mile 27.0. . The new temporary navigational lighting plan includes marking the 600 foot wide main channel by affixing four-180° steady, red navigation lights to the underside of the main span, 2 each on the upstream and downstream sides of the structure, 300 feet either side of the centerline of the bridge. Each green center of channel light will have 3 white lights stacked vertically above it. The center 600' feet of the Main Navigation Channel will be free for the passage of marine traffic and clear of all obstructions at all times.

This temporary configuration is expected to be in place through **mid-2015**, at which time more detailed information for channel restrictions and closures during the installation of the superstructure of the new main spans will be published.

Chart 12343 LNM 05/14 (CGD1)

NEW YORK – NEW YORK TO WAPPINGER CREEK - HUDSON RIVER – New Bridge Construction – Construction of the new Tappan Zee Bridge across the Hudson River, mile 27.7 is in progress. Work continue constructing access trestles and cofferdams that extend +/- 1,100 ft. west from the Westchester shoreline and +/- 1,200 ft. east of the Rockland shoreline of the Hudson River north of the Tappan Zee Bridge. These structures will remain in place through 2017. In addition, stone placement in the footprint of a dredged access channel to the east and west of the main channel will continue through **March 2014**. Floating equipment will be located east and west of the Main Navigation channel and will include crew boats, tug boats, barge mounted cranes, barges and anchor buoys. Other work associated with the construction of the new bridge includes an ongoing pile load test program that will continue through **February 2014**. This work includes the construction of temporary fixed platforms located in the Hudson River, some adjacent to but outside of the main navigation channel. Floating equipment will occupy the East and West Side Channels during construction and will include barge mounted cranes, material barges, work boats, and tug boats.

Work constructing the permanent bridge foundations has begun and will continue through **2017**. The work will involve over a hundred pieces of floating equipment and support vessels that will be moored/anchored or transiting from the Westchester shoreline to the Rockland shoreline including the side channels and portions of the main navigation channel. **Mariners are advised that the side channels to the east and west of the main channel are closed to vessel traffic and are advised to use only the center 600' of the main channel to navigate in a north-south direction through the area. Additionally, mariners are strongly advised to stay clear of all construction equipment and support vessels by 1000 feet or more when transiting the area.**

Additionally there are 4 equipment moorings located on the west side of the navigation channel, 2 to the south and 2 to the north of the bridge, these moorings will be relocated and an additional 12 will be added. The locations of the 16 moorings will be as follows:

(1N) N41 04.436 W73 54.340; (2N) N41 04.432 W73 53.915; (3N) N41 04.514 W73 53.572; (4N) N41 04.670 W73 54.574; (5N) N41 04.672 W73 54.138; (6N) N41 04.790 W73 53.700; (7N) N41 04.944 W73 54.422; (8N) N41 04.940 W73 54.030; (1S) N41 03.999 W73 53.894; (2S) N41 03.999 W73 54.285; (3S) N41 03.872 W73 53.540; (4S) N41 03.696 W73 54.202; (5S) N41 03.688 W73 53.820; (6S) N41 03.542 W73 53.486; (7S) N41 03.406 W73 54.092; (8S) N41 03.317 W73 53.737. The 16 mooring buoys are each lit with a flashing white light visible for a minimum of one nautical mile. Please be advised that mariners should stay clear of these locations by 1000 feet or more when transiting the area.

Mariners are advised to transit the main channel, reduce wake and use extreme caution while transiting the area in the vicinity of the Tappan Zee Bridge paying particular attention to vessel movement and future notices.
Chart 12343 LNM 04/14 (CGD1)

NEW YORK – HUDSON RIVER– UPPER HUDSON RIVER – Bridge Painting– Painting of the Newburgh-Beacon Bridge across the Hudson River at mile 62.0 will commence on or about **4 March 2013**. A safety boat will be stationed behind the bridge piers, outside the navigable channel. Hours of operation will be 0700 to 1900, Monday through Saturday. This project is expected to be completed by end of **2014**. The main channel will not be affected by this bridge painting project. Mariners are advised to reduce wake and exercise extreme caution when transiting the area.
Chart 12347 LNM 05/14(CGD1)

NEW YORK- NEW YORK HARBOR - HUDSON RIVER – UPPER HUDSON–Bridge Rehabilitation– Rehabilitation of the Patroon Island (I-90) Bridge across the Hudson River, mile 150.2, between Albany and Rennselaer, NY is in progress. Temporary scaffolding which will reduce the available vertical clearance under the bridge by approximately 3 feet will be installed to prevent debris from falling into the waterway. A work barge measuring **95t X 28ft** will operate in and around the channel. Hours of operation will be 0700 to 1700, Mondays through Fridays. This project is expected to be completed by mid **2015**. Mariners are advised to reduce wake and exercise extreme caution when transiting the area.
Chart 12343 LNM 04/14 (CGD1)

NEW YORK – NEW YORK HARBOR – UPPER BAY – BAY RIDGE CHANNEL – GOWANUS CANAL – Bridge Outages – The Third Street Bridge and Union Street Bridge both across Gowanus Canal, mile 1.8 and 2.1, respectively, are out of service due to electrical/mechanical systems severely damaged by the Superstorm Sandy. Mariners are advised to plan their transits accordingly.
Chart 12327 LNM 05/14 (CGD1)

NEW JERSEY- NEW YORK – NEW YORK HARBOR - HUDSON RIVER – UPPER HUDSON–Notice of Final Rulemaking – The Coast Guard has amended the drawbridge operation regulations that govern the operation of the highway bridge across the Hudson River, mile 152.7, between Troy and Green Island, New York effective **15 October 2013**. The owner of the bridge, New York State Department of Transportation, requested that a twenty four hour advance notice be given for bridge openings. In addition, the regulations for the 112th Street Bridge, mile 155.4, between Troy and Cohoes have been revoked since the bridge is no longer a movable structure. It is expected that this change to the regulations for the Troy-Green Island Bridge will provide relief to the bridge owner from crewing the bridge while continuing to meet the reasonable needs of navigation and will remove obsolete regulations from the Code of Federal Regulations (112th Street Bridge). To view the entire Final Rulemaking document, visit the First Coast Guard District Bridge Branch portal: <http://www.uscg.mil/d1/prevention/Bridges.asp>.
Chart 12332 LNM 05/14 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – KILL VAN KULL – Bridge Construction– The construction project for the raising of the Bayonne Bridge navigational clearance across the Kill Van Kull, mile 1.5, is in progress. Phase 1 is removal of the west side sidewalk. Phase 2 involves the demolition of the eastern half approach of the span deck. All work at this time is above the bridge deck and on the bridge approaches and will not impact marine traffic. Phases 1 & 2 of this project are expected to be completed by the end **March of 2014**. More information will be provided as the project progresses. Mariners are advised to exercise caution when transiting the area.
Chart 12327 LNM 05/14 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – ARTHUR KILL – Bridge Painting– Maintenance painting of the Outerbridge Crossing Bridge across Arthur Kill at mile 2.0 is in progress. Bridge painting project will not affect navigation. This project is expected to be completed by end of **2014**. Mariners are advised to exercise caution when transiting the area.
Chart 12333 LNM 05/14(CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – ARTHUR KILL – Bridge Construction– Construction for the replacement of the Goethals Bridge across the Arthur Kill, mile 11.5, is in progress. In water work (pile driving, cofferdam installation) will commence on the New Jersey side of the waterway. A crane barge measuring 40 ft X 120 ft will be operating in the area. All work will be outside the navigable water and will not impact marine traffic. More information will be provided as the project progresses. Mariners are advised to exercise caution when transiting the area.
Chart 12327 LNM 05/14 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – NEWARK BAY–Deck rehabilitation of the New Jersey Turnpike Bridge across Newark Bay, mile 5.3, is in progress. Hours of operation are from 0700 to 1700, Mondays through Fridays. Scaffolding measuring 8 ft X 16ft will be suspended from the bridge at various to prevent debris from falling into the waterway. Scaffolding will reduce vertical clearance by approximately 3ft and will be marked by synchronized quick flashing red lights on all four corners. This project is expected to be completed by **end of February 2014. Mariners are advised to exercise extreme caution and reduce wake when transiting the area.**
Chart 12337 LNM 05/14 (CGD1)

NEW JERSEY- NEWYORK HARBOR - NEWARK BAY – HACKENSACK RIVER -Notice of Temporary Final Rule – The Coast Guard is temporarily modifying the operating schedule that governs the operation of the Route 1 & 9 (Lincoln Highway) Bridge across the Hackensack River, mile 2.0. New Jersey Department of Transportation, requested to temporarily restrict bridge openings during the morning and afternoon rush hour periods to alleviate traffic congestion resulting from area (Pulaski Skyway) roadway closures. Effective **March 1, 2014** through **March 1, 2016**, the draw of the Route 1 & 9 (Lincoln Highway) Bridge, mile 2.0, across the Hackensack River shall open on signal; except that, the draw need not open for the passage of vessel traffic between 6 a.m. and 10 a.m. and between 2 p.m. and 6 p.m., Monday through Friday, except holidays. Tide dependent deep draft vessels may request bridge openings between 6 a.m. and 10 a.m. and between 2 p.m. and 6 p.m. provided at least a twelve hour advance notice is given by calling 973-589-5143. It is expected that this temporary change to the regulations will provide relief to vehicular traffic while continuing to meet the reasonable needs of navigation. Mariners are advised to plan their transits accordingly.
Chart 12327 LNM 05/14 (CGD)

NEW JERSEY- NEW YORK HARBOR - NEWARK BAY – HACKENSACK RIVER -Notice of Temporary Deviation – The Commander, First Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the Path VL Railroad Bridge across the Hackensack

River, mile 3.0, at Jersey City, New Jersey. Under this temporary deviation, the bridge may remain in the closed position for 26 consecutive weekends to facilitate bridge repairs effective on weekends from 12:01 am Saturday **November 23 2013** through 12:01 Monday **May 19, 2014**. The advance notice can be provided by calling the bridge tender at 201-246-2331 or via marine radio VHF-FM Chan.13. Vertical clearance in the closed position is approx. 40 feet at mean high water and 45 feet at mean low water. Vessels that can pass under the draw without a bridge opening may do so at all times. Mariners are advised to plan their transits accordingly.
Chart 12327 LNM 05/14 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – NEWARK BAY– HACKENSACK RIVER –Rehabilitation of the Eastbound and Westbound Route 3 Bridges across Hackensack River at mile 8.8 and 8.9, respectively, is in progress. Hours of operation are from 0700 to 1530. Floating equipment will be operating in and around the piers during rehabilitation. This project is expected to be completed by end of **February 2014**. Mariners are advised to exercise extreme caution and reduce wake when transiting the area.
Chart 12337 LNM 05/14 (CGD1)

NEW YORK AND NEW JERSEY-NEWYORK HARBOR – NEWARK BAY- HACKENSACK RIVER-New Bridge Construction– Replacement of the Whitt-Penn Bridge across the Hackensack River at mile 3.1 is in progress. Floating work equipments are operating in and around the piers outside the navigable channel, but at times might be partially restricting the channel. Mariners are strongly advised to contact Whitt-Penn Bridge landline 201-795-0631 or 973-589-5143 at least 12 hours in advance during the week day transit and 48 hours advance notice on weekend transit to alert the contractor to clear the channel for vessels transit. Mariners are advised to exercise extreme caution when transiting the area.
Chart 12337 LNM 05/14 (CGD1)

NEW JERSEY- NEWYORK HARBOR - NEWARK BAY – HACKENSACK AND PASSAIC RIVER -Notice of Temporary Final Rule - The Coast Guard is temporarily modifying the operating schedule that governs the operation of the Route 1 & 9 (Lincoln Highway) Bridge across the Passaic River, mile 1.9. New Jersey Department of Transportation, requested to temporarily restrict bridge openings during the morning and afternoon rush hour periods to alleviate traffic congestion resulting from area (Pulaski Skyway) roadway closures. Effective **March 1, 2014** through **March 1, 2016**, the draw of the Route 1 & 9 (Lincoln Highway) Bridge, mile 2.0, across the Hackensack River shall open on signal; except that, the draw need not open for the passage of vessel traffic between 6 a.m. and 10 a.m. and between 2 p.m. and 6 p.m., Monday through Friday, except holidays. Tide dependent deep draft vessels may request bridge openings between 6 a.m. and 10 a.m. and between 2 p.m. and 6 p.m. provided at least a twelve hour advance notice is given by calling the 973-589-5143. It is expected that this temporary change to the regulations will provide relief to vehicular traffic while continuing to meet the reasonable needs of navigation. Mariners are advised to plan their transits accordingly.
Chart 12327 LNM 05/14 (CGD1)

NEW YORK AND NEW JERSEY – NEW YORK HARBOR – NEWARK BAY– HACKENSACK RIVER - PASSAIC RIVER – Bridge Replacement– Replacement of the Route 3 Bridge across Passaic River at mile 11.8 is in progress. A temporary access roadway was installed at both east and west bridge approaches; however, the main navigational channel will be maintained at all times and will not be affected by this work. Contractor will install turbidity barriers around the perimeter of the project. The barriers will be anchored to prevent movement of the barrier and interference with navigation. An 18ft boat will be utilized to install the barriers. Mariners are advised to exercise caution and reduce wake when transiting the area.
Chart 12337 LNM 05/14 (CGD1)

NEW JERSEY – RARITAN BAY – RARITAN RIVER – Bridge Painting– Painting of the at the GSP (Driscoll) Bridge across the Raritan River at mile 2.2 is in progress. Contractor has installed a scaffolding to prevent debris from falling in the waterway. Scaffolding will reduce the available vertical clearance by approx. 3ft. Mariners are advised to reduce wake and exercise extreme caution when transiting the area.

NY/NJ – UPPER NY BAY – LIBERTY ISLAND SAFETY ZONE – Fireworks Display

Mariners are advised that a fireworks display is scheduled to be held on the Upper New York Bay within the Liberty Island Safety Zone, 33 CFR 165.168(a) (1): All waters of Upper New York Bay within a 240-yard radius of the fireworks barge located in approximate position 40°41'16.5" N, 074°02'23" W (NAD 1983), located in Federal Anchorage 20-C, about 360 yards east of Liberty Island. This Safety Zone will be enforced from **9:00 p.m. to 10:10 p.m. on February 13, 2014** for a 10 minute fireworks display scheduled at 9:30 p.m. The fireworks barge will have a sign on its port and starboard sides labeled FIREWORKS--DANGER--STAY AWAY to provide on scene notice that the Safety Zone will be enforced. Vessels may not enter, remain in, or transit through the Safety Zone during the enforcement period unless authorized by the Coast Guard Captain of the Port or designated Coast Guard patrol personnel on scene. Other Federal, State and local agencies may assist these personnel in the enforcement of the Safety Zone. Chart 12327, 12334, 12335. LNM 05/14
